

Mossmorran and Braefoot Bay Community Safety Committee

Fife Ethylene Plant
13th December 2018 – 14th March 2019

Safety, Health and Environment (14.03.2019)

- 8,593 days without a time losing injury to any personnel working onsite.
- 883 days since the last recordable injury.
- 628 days without any exceedances of consent limits
- 16 days since last flaring

Site Visits

- Nil to report

Corporate Hospitality

- The annual FEP Burns Supper took place on Friday 25th January at Balbirnie House Hotel further advancing engagement between FEP and its stakeholders and communities.

Plant Operations

- Scheduled meetings with SEPA and HSE since last meeting:

Regulator Visits Calendar		
30-Jan-19	HSE	Mechanical & Process Safety Inspection
20-21 Mar	HSE	EC&I Inspection
15-Mar	SEPA	BAT Alignment Discussion
26-Mar	SEPA	Chemicals Sector Plan feedback

Plant Operations

- The plant continues to operate safely and effectively. In addition, we continue to recruit with nine new operators starting training in January
- In February we safely completed a key piece of engineering maintenance without the need for flaring. This demonstrated our commitment to planning and executing work in a way that ensures the safety of our employees and our surrounding communities, as well as protection of the environment. A Community notice relating to this work was issued in advance.
- On Tuesday 26th February we had a minor process disruption caused by a power limitation on one of our refrigeration compressors. Our teams moved quickly to address the issue. Flaring associated with this disruption was primarily in the ground flares, with two minor periods of elevated flaring occurring whilst the plant was returned to normal operations. The flare was not smoky and SEPA were advised promptly.

Contributions

- Various safety initiatives undertaken by our employees and the Site Safety Forum resulted in £13,595 being raised in 2019 for various charities. Grants and Donations worth £6,225 have already been made in 1Q19 (see full listing attached).
- 1Q19 ExxonMobil VIP and School Governor Grants will be reported at the next meeting in June.

Community Complaints

In the 91 days since the last meeting, one attributed community complaint has been received.

Other

- FEP has appointed Stuart Neill as External Affairs Manager. Stuart brings over 25 years communications and engagement experience with organisations including Scottish Fire and Rescue Service, Scottish Government, Tesco and Royal Bank of Scotland. This senior level appointment underlines our commitment to enhancing our open communications.
- We have begun our search for three future engineers to join us as Process and Electrical Apprentices. We have widely publicised our search via the media and social media as well as directly with local schools, including events at Beath High School, Queen Anne High School and Windmill Campus, Kirkcaldy. Successful candidates will start their careers with FEP in Aug / Sept.
- Mark Diffley Consultants have now completed the Community Attitude Survey, the views in which will directly shape how we will engage and communi-

Other

- FEP participated in Inverkeithing Primary School's Science Week and looks forward to welcoming the Primary 6 pupils from the school to the site later in March to explore the World of Work and build understanding of the plant's operations.
 - As a key contributor to the Fife economy, FEP is supporting the 2019 Fife Chamber of Commerce Business Awards, sponsoring the "Excellence in People Development" category.
 - FEP senior managers actively participated in a cross-stakeholder meeting chaired by Lesley Laird MP in March. This looked at a range of issues including how we can collaboratively improve the public's access to information as well as improving communication and engagement.
 - We have agreed a sponsorship package to the value of £6,000 for a summer work placement student at The Ecology Centre, Kinghorn, who will also assist our summer STEM Schools Project at the plant in May/June time.
 - Over 150 Senior citizens from Cardenden, Cowdenbeath, Auchtertool and Lumphinnans joined us onsite in January for the Senior Citizens' Burns Lunches. These events are undertaken by our on-site teams who give their time for free to these valued events.
